

OPEN ACCESS

EDUCATING BUSINESSES TO ENHANCE COMMUNITY MOBILITY

Business owners and staff will be presented with information about the importance of their businesses being accessible and mobility friendly.

BRAG can evaluate accessibility and mobility friendliness so businesses know how or where they might improve, if desired.

Staff learn how to better recognize, communicate with and serve people of all abilities.

Access and Mobility elements of your business will be posted online so people of all abilities can see which businesses are accessible to them.

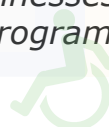

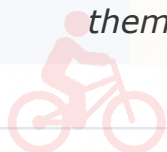

Resources will be provided to help businesses find solutions to increase accessibility and mobility, if they desire.

Agencies serving vulnerable populations will be notified of new businesses in program.

Businesses striving to increase accessibility and mobility will be recognized, and awards presented at an annual banquet.
